# HACKATHON

Scientific Revolutions | Advanced Computing Department of Physics, McGill University February 13-15, 2026

# WHAT IS THE MCGILL PHYSICS HACKATHON?

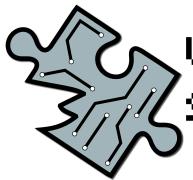

In recent years, scientific computing has been a driving force in academia and industry. Stunning scientific breakthroughs like the first image of a black hole would be impossible without novel techniques for handling unprecedented volumes and kinds of data. Similar breakthroughs are occurring everywhere we look, and in the coming decade, the trajectories of industry, the sciences, and a new digital economy will be intimately linked.

In our ongoing effort to inspire today's young people to be a part of these revolutions, the McGill University Department of Physics is happy to announce the 10th annual McGill Physics Hackathon! This year's event will take place February 13-15, 2026 at McGill University in the Trottier Building, and will only be hosted in-person. We invite all students with an interest in coding and the physical sciences, including high school, CEGEP, undergraduate, and graduate, to participate in this exciting event! Hackers will have the opportunity to refine their skills in coding (or learn to code!), scientific reasoning, creativity and communication, by putting together a project which uses some combination of physics and computing. Throughout this event, hackers will be supported by graduate student volunteers, organizational committee members, and even invited experts from industry and academia!

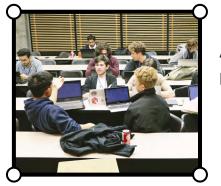

## WHY SHOULD YOU SPONSOR US?

Sponsoring the Physics Hackathon is an effective way to reach the individuals who will be leading tomorrow's technological revolutions. Your support as a sponsor will enable us to provide a solid platform for hacker-to-hacker and sponsor-to-hacker interactions, introduce attendees to the wide range of opportunities in the tech industry, provide high-quality mentorship, offer exciting prizes, and more!

#### RECRUITMENT

Our hackathon brings together a large group of passionate, motivated, and savvy students with interests in computing and data science. This weekend-long event includes networking and kick-off sessions on Friday, a full day of hacking on Saturday, and presentations and an awards ceremony on Sunday. Sponsors will have the opportunity to directly engage with our talented and passionate participants during the industry networking session on the Friday evening, and by attending and judging the presentations on Sunday.

#### PRODUCT EXPOSURE

At the hackathon, you will meet a unique group of hackers who are passionate about trying new things. This group includes many of the individuals who are most likely to use and promote your products.

#### BRAND RECOGNITION

By participating as a sponsor, you will be exposing your company and brand and elevating your presence in the eyes of the tech talents and leaders of the very near future.

#### Previous Sponsors

### SPONSORSHIP LEVELS

#### ○ **F` L A T I h | U h |** \$5000+

- Mention of logo in presentation, website and social media
- Logo on shirt\*
- Sponsor a meal + signage near food
- Booth for sponsorship reception on Friday and 5 min talk
- Company/organization description on our website and link to webpage
- Share a specific post/video of your company/organization on social media

# **GOLD** \$2000

- · Mention of logo in presentation, website and social media
- · Logo on shirt\*
- Sponsor a meal and signage near food
- Booth for sponsorship reception on Friday and 5 min talk

#### ○ **SIL WER** \$1000

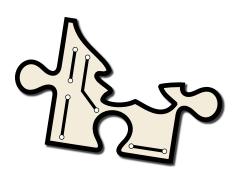

- · Mention of logo in presentation, website and social media
- Logo on shirt\*
- Sponsor the snacks and signage near food

#### **BROMZE** \$500

• Mention of logo in presentation, website and social media

It is also possible to sponsor one of our themed awards. Please contact us if you are interested in doing so.

\*If your company wants their logo on the shirt, you must commit to sponsoring by December 22nd, 2025.
